

Credit River Township

Meeting Minutes

June 2, 2008

Call to Order

Chairman Leroy Schommer called the meeting to order at 7:00 pm.

Members Present:

Chairman Leroy Schommer, Supervisor Brent Lawrence, and Supervisor Bruce Nilsen, Supervisor Al Aspengren, Supervisor Tom Kraft.

Others Present:

Township Clerk Jerry Maas, Township Treasurer Holly Batton, Township Engineer Shane Nelson, Former Township Engineer Jeff Elliott, Township Attorney Bob Ruppe.

Meeting Minutes

Chairman Schommer asked if there were any corrections to the minutes for the May 19th, meeting. Supervisor Bruce Nilsen requested that the minutes reflect a comment he made regarding the Township contribution to the Huntington Way road project. It was also noted that the request for a water permit fee in the Stonebridge project was coming from the Minnesota Department of Health, not the MPCA.

Supervisor Bruce Nilsen made a motion to approve the minutes with the noted corrections. Supervisor Al Aspengren offered a second, all in favor, motion carried 5 – 0

Chairman Leroy Schommer acknowledged that we now have a new table for the Supervisors to sit at meetings due to the efforts of Supervisor Tom Kraft and that Mr. Jeff Elliott has left the employ of Hakanson Anderson and that Engineer Shane Nelson will be our new engineer from the same firm.

Sheriff's Report

A Scott County Deputy dropped off the May report prior to the meeting. Clerk Maas noted that we had 120 Sheriff calls in the month of May, which is quite typical for this time of the year.

Open Forum

- 1) Resident Lorie Roberts of 6916 Flemming Circle. Noted that the yard in the property on the corner of 174th Street and Texas Ave. is not being properly kept up as far as keeping the lawn mowed.

Chairman Leroy Schommer noted that he has already been in contact with the Real Estate firm selling the home and given them a deadline to take care of the problem.

In the event the Township has difficulty is finding a contractor to take care of this, resident Greg Brown noted that he knows a person who has started a business with the express purpose of taking care of distressed properties. He will email Chairman Schommer the name of the contact.

- 2) Resident Cathy Haugh noted that she has attended several meetings over the last few months and would like to have the Board consider that agenda not be modified after publication in the local newspaper except in the case of an emergency topic that needs to be discussed.

Attorney Bob Ruppe cautioned the Board that they would need to remain flexible on this issue because situations arise where deadlines need to be observed,

She also noted that extra copies of the agenda had been provided this evening and was hopeful that this practice would continue. She is also asking that the approved minutes be posted to the Internet in a more timely fashion.

Mrs. Haugh also wanted the opportunity to read in full the email that resident Jay Saterbak had provided to the Board at last week's meeting where he was adamant in stating his position that the email address list used by the Clerk for newsletters is in fact Township property as he recalls certain lists being gathered at Township functions and he is of the opinion that these were in turn used by the Clerk in compiling his list which he is also of the opinion that the Clerk used for political gain.

The Board thanked Mrs. Haugh for her input.

- 3) Tim Conroy of 17215 Johanna Drive asked the Board if a policy can be adopted to clean up the Casey Addition neighborhood that was now being overrun with excess vehicles many of which are inoperable, that some homes are being occupied by more than the legal number of persons allowed to live in a single family residence and that there are large amounts of junk in many of the yards.

Chairman Leroy Schommer noted that the Township has actively pursued complaints on a number of issues in the past such as dirt bikes and landscaping issues related to the right-of-way.

Supervisor Brent Lawrence noted that a car that had been illegally parked had been towed last week. Supervisor Lawrence wondered if the residents of Casey's Addition might not consider forming a homeowners group to address some of these issues in the future.

Treasurer Holly Batton suggested that perhaps forming a Neighborhood Watch Group might be an approach for starters.

Chairman Leroy Schommer indicated that he has received enough complaints that should warrant the Board taking strong action on these complaints.

Supervisor Bruce Nilsen cautioned that we of course have limits of authority as respects property rights. He further noted that we don't have the staff to actively patrol the neighborhoods and look for problems and that we have typically operated by only responding to complaints by neighbors.

Supervisor Brent Lawrence noted that Scott County has rules related to many of these issues and that perhaps we can ask the Code Enforcement Officer to become more involved on specific cases.

Supervisor Al Aspengren asked Mr. Conroy about the number of places he felt were in violation and Mr. Conroy indicated that there were about 8 to 10. He provided a list of the addresses he was concerned about.

Engineers Report

1) Discuss 210th Street Road Improvement

Engineer Jeff Elliott noted that at the last meeting he presented some general information relative to the condition of 210th Street and it was his intention to go into greater detail this evening.

210th Street is approximately 3550 feet long from Clemwood Drive to Highway 27 and there exists a cul-de-sac on the eastern end.

Proper design standards required by the Township specify an approved sub-grade with 9 inches of class 5 gravel and 4 inches of bituminous applied on top. We currently have a width of 28 foot of gravel which would accommodate a standard 26 foot road width.

Engineer Elliott's estimate at this time for the total cost of surfacing 210th Street is \$305,120.

Engineer Elliott noted that the Harvest Ridge Developer's Agreement discussed the paving of 210th and specifically identified two properties that would not be assessed and two properties that would be assessed and his conclusion was that surfacing this road had always been considered as a potential assessment project.

As for monies that might be collected from the Territory project, Engineer Elliott noted that the Township could reasonably expect to collect approximately \$200,000 from lot fees designated, but the question would be as to when this money could be expected.

Regarding Nevada Ave., Mr. Elliott's engineers evaluation at this would be to propose constructing a 22 ft wide road at a total estimated cost of \$168,458.

In response to a question, Mr. Elliott noted that currently Right Turn Lanes would be estimated to cost \$50K, while By-Pass Lanes might be expected to cost \$75K not including easement acquisition costs.

Supervisor Al Aspegren asked the residents if the general consensus was to get the road paved earlier than might be expected if we wait until the planned Territory is developed. The response from the residents in attendance was overwhelming in favor of having this road paved as early as possible.

One of the residents noted that the property owners on Clemwood had been assessed \$87K as a part of their lot costs when they acquired their properties with the purpose of having the then deficient road brought up to the standard for gravel roads at that time.

Supervisor Bruce Nilsen noted that in his opinion, the Township should consider fronting some of these costs of surfacing the road based on expected monies coming in the future.

Supervisor Al Aspengren asked if the residents would be agreeable to accepting at least a partial assessment. Again, the response was favorable.

Supervisor Tom Kraft asked if plans call for adjusting the grade on Nevada Ave. in view of some of the residents concerns expressed last week on this issue. Engineer Jeff Elliott indicated that there would not be much of an adjustment. Several residents indicated that the grade of the hill isn't much of a problem.

Chairman Leroy Schommer expressed concern that as far as Nevada Ave is concerned, that if future development came forward, we might be faced with having to tear all of this construction out and rebuilding to a wider standard.

Supervisor Tom Kraft was of the opinion that current residents should not be charged for a 26 ft wide road in that this is not needed at this time. It was his thought that future development ought to pay this extra cost.

Both Chairman Leroy Schommer and Supervisor Bruce Nilson expressed the thought of leaving Nevada Ave. up to the residents with the suggestion being offered that they might want to present a petition.

Supervisor Tom Kraft made a motion authorize that a Feasibility Study for 210th Street and Nevada Ave. be prepared. Supervisor Al Aspengren offered a second, all in favor, motion carried 5 – 0

2) Feasibility Study – Whitewood Ave. / Birch Road

Engineer Shane Nelson presented the requested Feasibility Study for this project.

He noted that site visits indicated there were portions of the road had as little as 1 inch of bituminous surface which is an indication of why the road needs extensive work at this time.

The total engineering cost estimate is for this project is \$552,510 with 54 properties sharing this cost with a total per lot cost of \$10,230 per parcel.

Chairman Leroy Schommer noted that it was his opinion that the Board should also consider contributing the annual maintenance cost to this project also.

Supervisor Bruce Nilsen made a motion to adopt a Resolution # 2008-08 to set a Public Improvement Hearing for this project on July 7th at 6:00 pm at the Town Hall. Supervisor Tom Kraft offered a second, all in favor, motion carried 5- 0.

Upon the recommendation of Attorney Bob Ruppe, Supervisor Bruce Nilsen made a motion as a part of the previous Resolution to accept the Feasibility Report and order plans and specs for this project in order that it might move forward in a timely fashion. Supervisor Al Aspengren offered a second, all in favor, motion carried 5 – 0.

It was noted that if all goes according to plan, the target project start date would be August 18th and that we would expect it to be completed by September 30th.

Attorney Ruppe noted that there are very specific noticing requirements both for Posting and Publishing. It is planned that we would publish the notices in the newspapers on June 14th and June 21st and Post the notice on the board on June 5th.

3) Feasibility Study – Huntington Way

Once again, Engineer Shane Nelson presented the requested Feasibility Report.

He noted that the engineers estimated cost is \$342,080 for a 22 ft wide road and with 13 parcels expected to share in the project, the cost per parcel would be estimated at \$26,200.

Supervisor Bruce Nilsen noted that recent conversations indicated that at some point in the future the possibility exists where the entire Township might assume full responsibility for the entire project, similar to what the City of Lakeville is doing for their one-half of the Judicial Road project. It was his opinion that if that eventuality ever came to fruition, that some sort of a crediting system would need to be created in order to reimburse residents who had to stand the entire costs at this time.

Supervisor Bruce Nilsen made a motion to adopt Resolution 2008-09 to accept the Feasibility Reports, order the plans and specs and set a date for Public Hearing on July 7th at 6:30 pm for the Huntington Way project. Supervisor Brent Lawrence offered a second, all in favor, motion carried 5 – 0.

4) Discuss NPDES Annual Report

Supervisor Al Aspengren noted that tomorrow, June 3rd there will be a presentation at Scott County at 9:30 am regarding the MS4 program related to the National Pollution Discharge Elimination System (NPDES). He is planning on attending on behalf of the Township.

He further noted that we will be required to submit our Annual Report under this program by June 30th. He and Engineer Shane Nelson will assume responsibility for compiling and submitting this report by the end of the month

In addition to inspecting all of our construction sites, another requirement under this program is that we map and inspect the entire Township storm water management system, which is basically the ditch/culvert conveyance system. He reported that he had fulfilled that requirement last year while working as a consultant for the Township.

The next requirement under this phase of the program is to make arrangements that proper maintenance (cleaning) of this conveyance system is carried out on an annual basis. Last year he has identified a number of the worst obstructed culverts and we attempted to develop a program to have the residents take responsibility for cleaning their own culverts. This did not get started last year for a variety of reasons and Supervisor Aspengren noted that we need to embark on an aggressive program for getting these cleaned out this year.

Supervisor Aspengren presented a draft letter to residents that he intends to review and develop further in order to get this task accomplished

Resident Dave Cuthill asked if this type of work ought to be considered normal maintenance for the Township. It was noted that culverts exist in order to provide access to a property which is an item associated with ownership and therefore becomes the homeowner's responsibility.

Supervisor Aspengren indicated that there were approximately 30 blocked culverts.

The Board asked that we put this topic on the agenda for the next meeting and develop a workable plan to solve it. They asked that copies of the list of obstructed culverts be provided to each Board member.

Resident Greg Brown noted that many residents may lack the equipment or the skills required to perform this task and suggested that we offer alternatives to those who are unable to comply.

Resident Ruth Mcleod inquired about the cost to clean one culvert. Supervisor Aspengren suggested that it would be approximately \$100 per culvert.

In the absence of any further discussion, the Board asked that further discussion on this topic be tabled until next meeting.

Status of New Website

Supervisor Brent Lawrence noted that he had met recently with Treasurer Holly Batton, resident Greg Brown and the Wecetera people to review status on this effort. It was his desire that the website be operational no later than June 10th.

The address of this new official website will be www.creditriver-mn.gov

Park Report

Supervisor Brent Lawrence noted that he recently toured the Township parks. He noted that he had performed some minor repair work as follows:

- a) a stump was removed from the Creekwood Park
- b) repaired a swing in the Casey's Addition

He also noted that the Country Court Park had a swing missing and that the park needs cutting.

The Board asked that Supervisor Lawrence make arrangement to meet with the Mowing Contractor to review his work.

He reported that the park in Scotts View Acres is in very good shape.

Resident Mark Batton noted that he and other residents had been applying Round-Up weed killer in recent years as well as taking responsibility for dragging the infield of the ball diamond. He wondered if the Township would be prepared to take on this responsibility?

Supervisor Lawrence concluded his report by noting that much to his satisfaction, the Township Parks are being used.

Review Concept Plan for Red Fox Development

The developer requesting the project failed to make an appearance.

Property owner Bill Gallagher inquired as to the identification of the developer requesting that this project be considered. He noted that whoever he is, does not specifically own the property.

Mark Zweber – Discuss Liberty Creek Project

Developer Mark Zweber had asked to be scheduled on the agenda at the last meeting when he presented some information as to his plans for the Liberty Creek Project. He wondered if the Board had any questions that he might be able to assist with this evening.

The Board noted that they were under the impression that Mr. Zweber was intending on restarting the project but in checking with the County they had been told that there has been no submittal made as yet.

Mr. Zweber noted that he has just recently met with the County and that he has a tentative DRT meeting scheduled for June 18th.

Mr. Zweber stated that when he originally started the Liberty Creek project he had been mandated by the requirements of the AUAR study to access the project through the adjacent Territory project and that is how the design was approached. At the eleventh when Mr. Zweber was faced with critical deadlines being approached as the project was nearing the final approval stage, the county re-structured it's requirements and required that he specifically not access Liberty Creek through the Territory, but that he must erect a barricade between Liberty Creek and the Territory and that he must access Liberty Creek from the West via a road that will cost him \$500,000 to build.

It is his contention that this is an unreasonable requirement.

Territory residents Dawn Meyers, Mr. & Mrs. Steve Knutson and Bruce Hennen appeared To voice their objection about this apparent reversal of the approved Plat as it exists currently.

Mr. Hennen noted that the Territory trail system isn't completed at this time and to allow additional traffic at this time would constitute a safety issue.

Developer Gary Laurent of Laurent Development noted that he intends to take the same position as his firm has in the past and noted a letter sent to the Board today affirming their position

Mr. Zweber asked that he be given a copy of this latest letter.

Treasurer's Report

1) PERA Program

Treasurer Holly Batton presented some information on the Public Employees Retirement Assistance (PERA) program. She noted that as elected officials, both the Board and elected staff have the option to participate.

She asked if any members of the Board have any interest in this program and further asked that we place it on the agenda for the next meeting for more extensive discussion and consider passing a resolution authorizing participation in this program.

The Board asked that the topic be added to the agenda.

Other Business

1) Discuss and Finalize Policy on Road Repairs

Attorney Bob Ruppe submitted a revised policy incorporating the language asked for to address the deficiencies of the previous policy.

Supervisor Al Aspengren wasn't comfortable with this new language and suggested that the Board consider using a concept of having a list of "standing contractors" available to do the work that would be considered approved, licensed, and insured.

Chairman Leroy Schommer noted that such a list could be easily assembled based on our current list of approved vendors.

Attorney Bob Ruppe noted that we should consider writing a statement in the policy as to who should be used in an emergency.

Chairman Schommer and Supervisor Nilsen will supply Treasurer Batton and the new Board Members a list of names.

Based on the results of this discussion, Supervisor Bruce Nilsen made a motion to adopt Policy # 2006-002A. Supervisor Tom Kraft offered a second, all in favor, motion carried 5 – 0

2) Policy on Yard Signs

In response to a resident Dave Cuthill's observation at the last meeting that we are seeing a proliferation of various yard signs, Supervisor Tom Kraft gathered some information on the County requirements for sign placement on County roads.

Mr. Cuthill is concerned about his personal liability if he confiscates the sign and is asking that the Board supply some information that would inform potential violators that it is not acceptable to place signs in the Township road-right-of way.

Supervisor Tom Kraft suggested that Clerk Jerry Maas might consider placing some information on this topic in his next newsletter?

Attorney Bob Ruppe noted that he has recently been involved in similar discussions with St. Laurence Township and that he had drafted a letter for that Township to send to violators. He would make it a point to send us a copy.

3) Policy and Sediment and Erosion Control

Supervisor Tom Kraft noted that based on his experience with this program we need to fine-tune the process.

Supervisor Bruce Nilsen stated that it is his opinion that this entire program lacks the enforcement power to insure it can be administered properly both at SWCD and Scott County.

Engineer Jeff Elliott noted that Scott County is now actively promoting the fact that they can offer the same services. The Board suggested that Supervisor Kraft call Steve Horsman, Scott County Building Official, and discuss the issue with him.

4) Follow Through and Email / Letters

Supervisor Tom Kraft reviewed a list of a number of recent resident comments with the rest of the Board with the intention of insuring that these items were being addressed and closed.

The items identified as still open were as follows:

- 1) Weed control in the Territory
- 2) Variance Request for the Minneapolis Gun Club as to the 5-ton load limit for Judicial Road

Supervisor Bruce Nilsen will discuss with the Gun Club. The thought was that the Gun Club ought to request permission on a case-by-case basis as required so the Township knows what is going on.

The Board also asked Supervisor Aspengren to meet with the resident operating a boulder business out of his home on Judicial Road

- 3) The request to use the Township Roads for a Triathlon meet to use our roads

Chairman Schommer suggested we ask that he come to the next meeting to discuss

- 4) The letters to the paving contractors on the 185th Street re-construction and the resultant road damage to Judicial Road

While we have received a response from one of the contractors, the Board asked that we table further discussion pending receipt of a response for the other contractor.

5) Discuss Maintenance of Northern Section of County Road 75

Supervisor Brent Lawrence noted that this issue has arisen because when we are called upon to pick up debris, the question is who is responsible. In that it is a county road (75), and given the fact that we are contracting to maintain this road on an interim basis, are we responsible, or is the City of Savage responsible for maintenance and debris removal?

It was asked does our existing or pending contract with Scott County include garbage pickup?

Chairman Leroy Schommer suggested that when we finalize our Turnback Agreement with Scott County, that we be sure to include the City of Savage in the discussions.

6) Discuss Township Sign Requirements

Chairman Leroy Schommer noted that another issue that has arisen out of the picking up of debris on County Road 75 is the fact that specifically locating the Township border is not that obvious and suggests that we order additional signs identifying the border as we currently have placed on the other highways.

Supervisor Bruce Nilsen also noted that in his opinion we ought to order signs that only specify a fine for “illegal dumping”, but also offer an award for reporting those who are observed to be dumping illegally.

The Board asked Attorney Bob Ruppe to develop an ordinance that would address these issues.

Resident Cathy Haugh noted that they observe people at all hours in the process of dumping trash and feels that this ordinance would be a very effective tool in controlling this practice.

In response to an ongoing and growing problem at the entrance to the Creekwood Development, the Board discussed the possibility that “No Parking” signs be erected.

Supervisor Brent Lawrence made a motion to install “No Parking Here to Corner” signs on each side Creekwood Road at the entrance to the Creekwood Development. Supervisor Al Aspengren offered a second, all in favor, motion carried 5 – 0.

7) Upcoming DRT Meeting

The Board decided that since the meeting has been posted, Supervisors Kraft, Aspengren and Nilsen should attend the meeting set for Wednesday, June 4th at 8:30 am at Scott County.

8) Culvert Cleaning

The Town Board authorized Attorney Bob Ruppe to research the authority of the Town Board to require residents to maintain their culverts without elector authorization.

9) Future Projects where Land Owner is not involved in the Presentation

Supervisor Bruce Nilsen noted that in view of the situation that happened earlier this evening, we need to insure projects are prepaid in the case where the landowner is not bringing the project forward.

In these cases, the Township has expended funds in reviewing the project only to find out it can't go forward do to issues between the property owner and the proposed developer.

It was decided to discuss this issue with Marty Schmitz at Scott County.

10) Attorney Bills

Supervisor Tom Kraft had some questions regarding recent billings from the Town Attorney.

a) Malacha Trucking

Supervisor Kraft noted that we have spent close to \$600 in attorney fees communicating and resolving a mistake in awarding of the rock hauling contract earlier this year.

Attorney Ruppe reviewed the background of what had happened and noted that he responded to several phone calls from Malacha Trucking regarding this issue, to research the legal claims being asserted by the trucking company and to send several letters to the Malacha Trucking firm to re-iterate our position that we were not at fault in rescinding the original award and subsequently awarding the contact to Klingberg Trucking out of Jordan.

b) Issue of Urban Powers

Attorney Ruppe noted that he had received a phone call from Treasurer Batton noting that the County Auditor does not have a record of our filing a resolution claiming urban town powers on file as required by Minnesota law.

Attorney Ruppe has asked Clerk Jerry Maas to review the town minutes from the last several years to make a determination if this resolution has ever been passed.

Nothing has surfaced to date. In the event that we are unable to locate this, we will have to prepare and adopt a resolution at a later date.

c) Conversation with the Springstad Financial Company

Treasurer Batton had been conducting discussions with this company a number of months ago, but can recollect no recent conversations that might have precipitated a conversation between Attorney Ruppe and that firm.

Attorney Ruppe can only recollect receiving a call from a member of that company, citing the firm's contact with Treasurer Batton, who requested information regarding the Township's incorporation plans and need for a fiscal impact study.

Supervisor Kraft will call Springstad and get a clarification

d) Conversations with MAT

Supervisor Kraft noted that it appeared that the Township was paying for conversations initiated by MAT attorney Dan Greensweig to Mr. Ruppe and he wanted a clarification. It was Supervisor Kraft's understanding that we have the opportunity to receive free legal advice from MAT and that this benefit is negated when we incur legal expense from the Town Attorney.

Mr. Ruppe noted that this particular situation arose out of a phone call to MAT from Treasurer Batton inquiring as to the legal requirement to post a meeting notice in the case of the Town Board canvassing the election results. In that this took place on election day, Mr. Greensweig was concerned that the Township could be facing some sort of an election challenge and immediately called the Town Attorney to alert him to this fact. While it was later established that there is no legal requirement to post this notice, none the less, Mr. Ruppe advised Clerk Jerry Maas to post the notice and schedule a canvas meeting to be in compliance with this posting.

Mr. Ruppe explained that MAT does not consult the Town Attorney on every issue it discusses with the local officials, only those where potential exposure may exist and this just makes good business sense.

e) Billing Detail

The Board asked whether it would be possible to be more specific in the billing as to "who called who" on each entry? Attorney Ruppe indicated that the system he uses does not easily handle this requirement, he would none the less look into this.

Treasurer Batton asked that it be entered into the record that time spent researching questions about the billing are not themselves billed again. Attorney Ruppe assured the Board that this was not the case.

11) Billing on Judicial Road

Treasurer Batton has noted that the contract between Credit River and the City of Lakeville for sharing the costs of the reconstructing of Judicial Road does not

specifically allow for administrative expenses to be accrued. The contract specifically specifies that only construction costs are to be shared.

Engineer Jeff Elliott noted that not to include these charges under the contract would be highly unusual and that he is quite certain that this was not the intent.

He will call the City of Lakeville and get this clarified.

12) Re-Organization Items

In view of the lateness of the hour, the Board decided to table this agenda item until the next meeting.

13) Transfer funds from Savings to Checking

At the request of Treasurer Batton, Supervisor Bruce Nilsen made a motion to transfer \$10,000 from the Township Savings Account to the Township General Checking Account. Chairman Leroy Schommer offered a second, all in favor, motion carried 5 – 0.

Review and Pay Bills

The Town Board approved and paid the following claims:

5/20/2008	EFTS	Anchor Bank	May 2008 Withholding	\$	1,946.94
6/2/2008	4380	Eide Baily LLP	2007 Audit Services	\$	3,000.00
6/2/2008	4381	Kraemer Mining & Materials	Purchase Rock	\$	146.48
6/2/2008	4382	MVEC	Town Hall Electricity	\$	64.41
6/2/2008	4383	MVEC	Monterey Hgts Lift Station	\$	42.02
6/2/2008	4384	MVEC	South Passage Lift Station	\$	56.02
6/2/2008	4385	Enviro Care Services	Town Hall Cleaning-May	\$	61.77
6/2/2008	4386	CenterPoint Energy	Town Hall Gas	\$	81.40
6/2/2008	4387	Xcel Energy	St Francis Street Light	\$	12.18
6/2/2008	4388	Hakanson Anderson Assoc	Engineering - April 2008	\$	7,695.48
6/2/2008	4389	Art Johnson Trucking	May Road Maintenance	\$	2,866.50
6/2/2008	4390	Al Aspengren	May Expenses	\$	16.16
6/2/2008	4391	Holly Batton	Expenses-May	\$	709.00
6/2/2008	4392	Leroy Schommer	Expenses-May	\$	42.53
6/2/2008	4393	Tom Kraft	Expenses-May	\$	20.20
6/2/2008	4394	Brent Lawrence	Expenses-May	\$	10.78
6/2/2008	4395	Jerry Maas	Expenses-May	\$	192.50
6/2/2008	4396	Webcetera	New Website Design	\$	450.00
6/2/2008	4397	Klingberg Trucking	Gravel Hauling	\$	12,048.80
6/2/2008	4398	Castle Rock Materials	Class Five Rock	\$	4,301.73
6/2/2008	4399	Castle Rock Materials	Class Five Rock	\$	11,947.64
6/2/2008	4400	Bruce Nilsen	Services as Supervisor	\$	1,214.40
6/2/2008	4401	Leroy Schommer	Services as Supervisor	\$	1,098.97
6/2/2008	4402	Al Aspengren	Services as Supervisor	\$	481.71
6/2/2008	4403	Holly Batton	Services as Treasurer	\$	2,367.38
6/2/2008	4404	Tom Kraft	Services as Supervisor	\$	574.06
6/2/2008	4405	Brent Lawrence	Services as Supervisor	\$	937.35
6/2/2008	4406	Jerry Maas	Services as Clerk	\$	3,324.60
6/2/2008	4407	Bruce Nilsen	Expenses - May	\$	47.47
6/2/2008	4408	Dave Cuthill	Deputy Treasurer-March 2008	\$	180.00
6/2/2008	4409	Private Underground	Utility Locates	\$	136.00

6/2/2008	4410	Mike's Septic	Town Hall Septic	\$	235.00
6/2/2008	EFTS08June	Anchor Bank	Withholding Taxes-June 2008	\$	2,013.02

Adjourn

There being no further business before the Town Board, Supervisor Al Aspengren made a motion to adjourn, Chairman Leroy Schommer offered a second, all in favor, motion carried 5 - 0. The meeting adjourned at 12:18 pm.

Submitted By: (s/) Jerald R. Maas
Township Clerk
Credit River Township

Approved By: (s/) Leroy Schommer
Chairman Board of Supervisors
Credit River Township
